Results reported in colony-forming units (cfu) per milliliter

NOTES

*Our potency results are reported in percentages. To help you better calculate dosage, we report potency in milligrams per ounce of product, regardless of sample size submitted.

We guarantee these results were run with the set standards that we have developed at Sequoia Analytical Labs. For more information about these standards please refer to our website or contact us at the lab. These results are for informational purposes only. Sequoia shall not be liable for any misrepresentation and can only discuss results with the submitting party.
